Please feel free to ask any questions you might have about the Students' Union, what we do, what we actually are and how you can get involved
Welcome week 2019 round up

Thanks for signing on to the chat.

This video shows a bit about the SU and University’s Welcome Week, where new students can learn a bit about what we do here at the SU!

How exciting! Could you maybe tell me a bit more about what you do and maybe what the biggest societies are?

As an independent and student-run organisation, we run loads of events for students, as well as societies, sports clubs, bars, restaurants and club nights, alongside campaigning for students to make positive change within the University. Some of the biggest societies are Warwick Student Cinema, who put on films most days of the week for super cheap, and also give the opportunity for students to get involved with running the cinema.

How exciting! Could you maybe tell me a bit more about what you do and maybe what the biggest societies are?

We also have large conference societies such as TEDx and Congress, as well as activities and games societies, campaigning societies and academic societies.

I was wondering if joining the radio/newspaper societies is hard. Is it competitive to get into?
You can see the full list of societies here!

I was wondering if joining the radio/newspaper societies is hard. Is it competitive to get into?

It's not hard at all - everyone is welcome in all of our societies and The Boar (newspaper) and RAW (radio) societies help to train even complete beginners. They're both award-winning and super inclusive!

Let us know what you're interested in and I'll let you know if there's a society or sports club that would interest you!

Welcome week 2019 round up
