STARTING 11TH NOVEMBER 2021

JOIN OUR TEACHER BRIEFING AND Q&A ON 19TH OCTOBER

Supported in Coventry by

For students aged 8-11

TeenTech City of Tomorrow invites young people to design ideas for the safer, smarter, kinder City of Tomorrow, surfacing careers in the connected city, increasing awareness of global sustainability goals and citizenship.

Students consider how physical spaces (home, health, education sport, entertainment, commercial) can provide better experiences for everyone and how they might play a part in the inclusive, digitally connected, city of the future.

The emphasis is on bold creative thinking with live feedback from local and national employers.

Students get to DREAM BIG, creating buildings for their TeenTech City of Tomorrow and becoming designers, technologists and engineers.

TeenTech City of Tomorrow in Coventry will consist of a Live Build Session on Thursday 11th November, where pupils will be guided through the process, and a Live Feedback Session on Thursday 25th November where all buildings created will be showcased. All projects will receive feedback from industry experts from the world of design, technology and engineering.

TeenTech Live meets Gatsby benchmarks and has been highly praised by teachers, parents and students.

- Engaging, highly interactive
- Students can participate whether working in school or at home in event of COVID-19
- 'Live' virtual sessions led by science and technology broadcasters with input from global and local companies
- Students can safely ask industry experts questions
- Opportunity to work on a real world challenge with support from industry
- An opportunity for schools to develop their project further and enter our TeenTech City of Tomorrow National Showcase

Impact

- Students saying they were very or somewhat interested in a career in Design, Technology and Engineering grew 55% to 86%
- Students saying they felt capable of having a career in those areas grew from 61% to 80%

"This has been an amazing experience and I have definitely had a deeper dive into the world of tech."

- Student

"Just brilliant. Engaging and inspiring. This has been a difficult time for us all and you have made a difference and a positive impact on many, many children."

- Parent
