

Candidate Instructions & Information (for online survey)

- You have three (3) minutes to answer the following survey. The survey is not automatically timed, you will need to time yourself from the moment of beginning the survey.
- Please note that the time you begin and end the survey online is recorded and will be checked. Completion times greater than three minutes will be recorded and noted within a candidate's admission data profile. Candidates with excess completion times will be rejected.
- You can only complete the survey once.
- Complete the survey by selecting the single option that is most or least like you (your behaviour).
- Read the wording of the statements carefully and ensure you select the answer most suited to you.
- We are looking for your initial honest reaction, there are no right or wrong answers. No single answer is correct or more desirable.
- **Be honest and provide your initial reaction** as during the MMI you will be required to discuss, evidence and defend the behaviours that you chose.
