

Assessment – Reflection

Reflection: Make short **individual** reflective notes at the end of EACH day using Gibbs (1988) model of reflective practice. You will have time to do this at the end of each class. Your weekly reflection can be assessed on the 4 short pieces you produce each week OR you can frame your submission in a context relevant for you and write one longer piece that connects ideas covered that week.

Top marks: pieces that go beyond description and make links to individual context or development goals.

Assessment – Presentation

Presentation: In **groups** select one UN SDG, design and present a solution to address it and discuss leadership implications for implementing your solution.

Top marks: Each member of your team should contribute to the presentation and Q&A. Presentation and discussion making links between ideas and concepts covered in lectures.
