

1. Write down the problem you are trying to solve

---

---

2. Phrase it as a design question (How might we..?)

---

---

3. State the ultimate impact you are trying to make

---

---

4. Write down some possible solutions to your problem

---

---

5. Write down some of the context and possible constraints you're facing

---

---

6. Does your original question need a tweak?

---

---
