

# Environmental Sustainability Strategy on a Page

## RESEARCH

- 1) Grow impactful environmental sustainability research and enhance its visibility.
- 2) Use Warwick Campus as a living lab to strengthen sustainability research and teaching.
- 3) Expand research reach by building strategic partnerships locally, nationally and globally.
- 4) Continuously improve the sustainability of our research environment and share best practice with others.

## EDUCATION AND STUDENT EXPERIENCE

- 1) Embed holistic ESD principles within institutional quality processes.
- 2) Empower students and staff through transformative ESD approaches.
- 3) Develop institutional capacity for transformative ESD.

## COMMUNITY AND ENGAGEMENT

- 1) Enhance awareness and boost engagement with staff and students.
- 2) Encourage environmentally conscious decision making.
- 3) Be recognised regional leaders in environmental sustainability.

## OVERSIGHT AND DECISION-MAKING

- 1) Enhance sustainability leadership and accountability.
- 2) Integrate sustainability into university policies.
- 3) Promote transparency and reporting.
- 4) Ensure continuous improvement and innovation.

## OPERATIONS

- 1) Reduce our carbon emissions, monitor and report on our progress, and use this data in decision making.
- 2) Support nature recovery on our campuses and beyond.
- 3) Move towards a circular economy campus, minimising waste and keeping things in use for longer.
