

15 Arts and Culture

The Faculty of Arts building on campus is home to lots of researchers and teachers, finding out new things and sharing what they find, about topics commonly known as 'Arts and Culture'.

YOUR CHALLENGE: Can you use the ciphers to work out three of the many arts and culture topics that are researched here at the university?

C3	♥	◆	+	♣	▽	○	○	♣	+	◁	◆

If you haven't heard of some of these topics, why not use the internet or the library to find out what they mean

And of course, you can have a go at writing your own words or sentence using the ciphers above.

(if you have access to a computer and a programme like Word, the fonts used to create this cipher are a mix of Webdings, Wingdings, Wingdings 2 and Wingdings 3).

Research in arts and culture helps us to understand more about people and society, to view the world in a different way and enable opportunities for people to come together and create.

Engagement in the arts is beneficial to people's and community's creativity, communication and well being.
